

## LeechCraft - Bug #1144

### Don't use QDsktopService for web page opening

06/24/2013 10:11 AM - Magog

<b>Status:</b>	Third-party bug	<b>Start date:</b>	06/24/2013
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	rayslava	<b>% Done:</b>	100%
<b>Category:</b>	Plugins: Woodpecker	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Reported in:</b>	master		
<b>Description</b>			
Use LeechCraft::Entity with url as first parameter and OnlyHandle   FromUserInitiated as TaskParameters for opening auth page. In my case page will be opened in Poshuku if poshuku exists and in default browser if doesn't.			

### History

#### #1 - 06/24/2013 10:21 AM - 0xd34df00d

It's a KQOAuth shortcoming, actually.

#### #2 - 06/28/2013 10:22 AM - 0xd34df00d

- Status changed from New to Third-party bug

- % Done changed from 0 to 100

Reported upstream, patch proposed: <https://github.com/kypeli/KQOAuth/pull/5>

Reopen when upstream fixes it.
