Всё ещё актуально? У меня can't reproduce.

да.

Это до нажатия на паузу: <http://dump.bitcheese.net/images/opytuvu/screenshot.png>

После: <http://dump.bitcheese.net/images/otiwixu/screenshot.png>

Как говорится, в чем разница?

В логах, однако видно:

```

То есть оно может и ставится на паузу, только это никак в статусе торрента не отражается. С другой стороны, при проверке троеента, если ставить на паузу, то статус меняется с "Проверяется" на "Простаивает"
