

## LeechCraft - Bug #1973

### The first autoopened message in non-focused window is marked read

<b>Reported in:</b>	master		

#### Description

If Azoth window isn't focused, user usually can't have read the newly arrived message.

1. If there's an opened chat tab, and new message arrives there, it isn't marked as read (*MaR*).
2. If there's an opened chat tab, message from another contact arrives and is auto-opened, it isn't *MaR*.
3. But if no chat tabs are open, newly arrived message is auto-opened and *MaR*

In all described cases Azoth window isn't active/focused.

#### Associated revisions

##### Revision 99dd9273 - 02/04/2016 12:16 AM - 0xd34df00d

[Azoth] Only mark as read if window has focus.

Fixes #1973.

#### History

##### #1 - 02/03/2016 03:36 AM - 0xd34df00d

If Azoth window isn't focused, user usually can't have read the newly arrived message.

That's not so obvious, but I agree the described cases should manifest consistent behaviour.

If there's an opened chat tab, message from another contact arrives and is auto-opened

Is the tab automatically selected or is it opened in the background?

##### #2 - 02/03/2016 03:37 AM - 0xd34df00d

- Subject changed from [Murm] the first autoopened message in non-focused window is marked read to The first autoopened message in non-focused window is marked read

I guess it's not Murm's fault.

You mean that actual user could have read actual message in non-focused window? Sure, but Azoth considers messages read only if the window is focused, doesn't it? So yes, I'm all for more consistent behaviour.

If there's an opened chat tab, message from another contact arrives and is auto-opened

Is the tab automatically selected or is it opened in the background?

New tab is opened in the background (which is The Right Thing™).

**#4 - 02/05/2016 04:17 AM - 0xd34df00d**

- Estimated time set to 2.00 h
- Target version set to 0.6.75
- Assignee set to 0xd34df00d
- Status changed from New to Assigned
- Category set to Plugins: Azoth

Sure, but Azoth considers messages read only if the window is focused, doesn't it? So yes, I'm all for more consistent behaviour.

Me too, but an configuration option could be added for that (which I'm too lazy to do at the moment, though).

New tab is opened in the background (which is The Right Thing™).

This is actually already configurable :)

**#5 - 02/05/2016 04:17 AM - 0xd34df00d**

- % Done changed from 0 to 100
- Status changed from Assigned to Resolved

Applied in changeset [main|99dd9273102de443dc7167c3ee4c586f6828faf0](#).

**#6 - 02/05/2016 11:30 AM - krigstask**

Thanks for fixing that!

Me too, but an configuration option could be added for that (which I'm too lazy to do at the moment, though).

Hm, like what? "Behave consistently"? (-:E  
Or is there any way to determine was the message read?

New tab is opened in the background (which is The Right Thing™).

This is actually already configurable :)

As per [#1364](#), requested by me? (-:E

**#7 - 06/10/2017 01:30 AM - 0xd34df00d**

So is there anything else remaining for this ticket?

**#8 - 06/17/2017 05:33 PM - krigstask**

I believe there isn't.  
Usually you close issues yourself =)

**#9 - 06/17/2017 09:47 PM - 0xd34df00d**

- Status changed from Resolved to Closed

Sure! I just wanted to double-check I haven't missed anything.
