

LeechCraft - Bug #2031

Tracking code deficiencies in Blasq

01/09/2017 05:59 AM - 0xd34df00d

Status:	Cant reproduce	Start date:	01/09/2017
Priority:	Normal	Due date:	
Assignee:	Magog	% Done:	0%
Category:	Plugins: Blogique	Estimated time:	0.00 hour
Target version:	0.6.75		
Reported in:	master		

Description

This issue is for tracking code deficiencies in Blasq and its subplugins.

So far, the following:

- Members `Public_`, `SortOrder_` and `Realld_` of `Blogique::DeathNote::FriendsGroup` are only assigned, but not used anywhere. Is that a mistake, or are they really not needed? If it's the latter, let's remove them.

History

#1 - 01/09/2017 10:34 AM - Magog

- Status changed from Assigned to Cant reproduce

This(FriendsGroup) struct has all fields returned by fotobilder service.
May be they aren't used now, but may be can be useful in future

#2 - 01/09/2017 10:34 AM - Magog

Pls, add Rejected choice to task statuses
