## History

### #1 - 02/21/2012 03:05 PM - risky

нашёл что в этот момент Guest на канал зашёл, возможно из-за его смены ника.

### #2 - 02/21/2012 03:05 PM - Magog

На сколько я понял, то проблема в адиумах. Или не?

### #3 - 02/21/2012 05:24 PM - 0xd34df00d

Для входящего сообщения либо OtherPart, либо ParentCLEntry было равно нулю, смотря какой класс согласно этому коду:

```

switch (msg->GetMessageType ())
{
case IMessage::MTChatMessage:
case IMessage::MTMUCMessage:
case IMessage::MTStatusMessage:
    other = qobject_cast<ICLEntry*> (msg->OtherPart ());
    break;
case IMessage::MTEventMessage:
case IMessage::MTServiceMessage:
    other = qobject_cast<ICLEntry*> (msg->ParentCLEntry ());
    break;
}

```

### #4 - 02/21/2012 05:30 PM - Magog

хуита какая-то. Как мне отловить это говно :-)

**#5 - 02/21/2012 05:34 PM - Magog**

Нужно больше подробностей. Пусть проверит с последними фиксами. У меня на смене ника не падает.

**#6 - 02/21/2012 05:34 PM - 0xd34df00d**

А ты с адиумостиями пробуешь?
